

Complete 3-Layer Business System: Find-Get-Distribute Model

Scalable Freelancer Network with Complete SOPs

YOUR BUSINESS MODEL: The 3 Core Principles

LAYER 1: FIND → GET → DISTRIBUTE

The Core Business Model

1. FIND (Finding Clients & Freelancers)

FIND CLIENTS:

- Local businesses (walk-in, WhatsApp, Instagram)
- Online leads (website form, Google Business, social media)
- Referrals (existing clients)

FIND FREELANCERS:

- Upwork, Fiverr, Freelancer.com
- Local developers/designers
- Student interns (colleges)
- Online communities (Reddit, Facebook groups)

Zoho System:

2. GET (Getting Projects & Resources)

GET PROJECTS FROM CLIENTS:

- Discovery call → Proposal → Contract → Deposit → Project starts

GET WORK DONE:

- Small project (<₹50K): You do it
- Medium project (₹50K-₹1L): You + 1 freelancer
- Large project (>₹1L): You + 2-3 freelancers

Zoho System:

Won Deal (CRM) → Creates Project (Zoho Projects)

Assign Tasks → To You OR To Freelancer

Track Progress → Real-time in Projects

3. DISTRIBUTE (Distributing Work & Payment)

DISTRIBUTE WORK TO FREELANCERS:

Example: ₹80,000 Website Project

YOU handle:

- Client communication (100% your role)
- Requirements gathering
- Project management
- Quality control
- Client handover

FREELANCER 1 (Designer) handles:

- Website design/mockup
- Payment: ₹15,000

FREELANCER 2 (Developer) handles:

- WordPress development
- Payment: ₹20,000

FREELANCER 3 (Content Writer) handles:

- Content writing (if needed)
- Payment: ₹5,000

YOUR EARNINGS:

Revenue: ₹80,000

- Freelancer costs: -₹40,000
- Tools/hosting: -₹3,000
- Your profit: ₹37,000
- Your time: 10-15 hours (vs. 30 hours doing it yourself)

DISTRIBUTE PAYMENTS:

Via Zoho:

Client pays you → Zoho Invoice (₹80,000)

Record in Zoho Books (Income)

You pay freelancers → Zoho Expense (₹15K, ₹20K, ₹5K)

Net profit auto-calculated → ₹37,000

All tracked per project

LAYER 2: LIFECYCLE TRACKING SYSTEM

Complete Project & People Tracking

A. PROJECT LIFECYCLE (Past, Present, Future)

Zoho Projects Structure:

PROJECT: [Client Name] - [Website Type] - [Date]

PROJECT INFORMATION (Always Captured):

Client Details

Company name

Contact person

Phone, email, address

[Link to CRM Contact]

Project Scope

Website type (Business/Portfolio/E-commerce/etc.)

Number of pages

Features required

Special requests

[Linked to signed contract in Zoho Docs]

Financial Details

Total project value: ₹[X]

Advance received: ₹[X] (date)

Balance due: ₹[X] (date)

[Linked to invoices in Zoho Invoice]

Profit margin: [X]%

Timeline

Start date: [Date]

Expected completion: [Date]

Actual completion: [Date]

Total days taken: [X]

Status: Planning/In Progress/Review/Completed

Team Assignment

Project Manager: YOU

Designer: [Freelancer Name - link to Zoho People]

Developer: [Freelancer Name - link to Zoho People]

Content: [Your/Freelancer Name]

Hours logged per person

Deliverables

☐ Homepage

☐ About page

☐ Services pages (X pages)

☐ Contact page

☐ Blog setup

☐ [Additional pages specific to project]

All files stored in: Zoho Docs/[ProjectFolder]

- Client Communication History
 - Discovery call recording: [Link to Zoho Meeting recording]
 - All emails: [Linked from Zoho Mail]
 - Meeting notes: [In Zoho Projects comments]
 - Feedback/revision requests: [All logged]
 - Approval emails: [Saved]
- Technical Details
 - Domain: [domain.com] - [Registrar]
 - Hosting: [Provider] - [Plan]
 - Platform: WordPress/Webflow/Zoho Sites/Custom
 - Theme/Template used: [Name]
 - Plugins installed: [List]
 - Admin credentials: [Saved in Zoho Vault - secure]
 - Git repository: [If applicable]
- Post-Launch
 - Launch date: [Date]
 - Training video: [Loom link - saved in Zoho Docs]
 - Handover document: [PDF in Zoho Docs]
 - 30-day support status: Active/Completed
 - Maintenance plan: Yes/No - ₹[X]/month
 - Support tickets: [Link to Zoho Desk tickets]
- Project Review (After Completion)
 - What went well: [Your notes]
 - What could improve: [Your notes]
 - Client satisfaction: [1-5 stars]
 - Would work again: Yes/No
 - Testimonial received: Yes/No [Link]
 - Referral potential: High/Medium/Low
 - Lessons learned: [Your notes for future]

PAST Projects:

- Status: Completed
- Searchable by: Client name, date, website type, freelancer
- Use for: Reference, estimates, portfolio

PRESENT Projects:

- Status: In Progress
- Daily tracking: Tasks, time, progress
- Active communication

FUTURE Projects:

- Status: Planning/Upcoming
- Scheduled start dates
- Resource allocation planned

B. PEOPLE LIFECYCLE (Clients + Freelancers)

1. CLIENT TRACKING (Zoho CRM)

CLIENT PROFILE: [Company Name]

BASIC INFO:

- Company: [Name]
- Industry: [Restaurant/Salon/Clinic/etc.]
- Contact Person: [Name]
- Phone: [Number]
- Email: [Email]
- Address: [Full address]
- Website: [Current site if any]
- Social Media: [Links]

RELATIONSHIP HISTORY:

- First Contact Date: [Date]
- Source: [Walk-in/Referral/Instagram/etc.]
- Status: Lead → Qualified → Won → Customer
- All Interactions:
 - [Date] - Discovery call [Link to recording]
 - [Date] - Proposal sent
 - [Date] - Contract signed
 - [Date] - Project started
 - [Date] - Project completed

PROJECTS DONE FOR THEM:

- Project 1: [Name] - [Date] - ₹[X] [Link]
- Project 2: [Name] - [Date] - ₹[X] [Link]
- Total business value: ₹[X]

FINANCIAL SUMMARY:

- Total revenue generated: ₹[X]
- Outstanding balance: ₹[X]
- Payment history: On-time/Late/Excellent
- Profitability: High/Medium/Low

CLIENT BEHAVIOR:

- Communication style: Quick/Slow/Clear/Confusing
- Decision making: Fast/Slow/Requires approval
- Content provision: Good/Poor/AI-generated
- Revision rounds taken: [X] rounds
- Overall rating: [1-5 stars]

FUTURE POTENTIAL:

- Maintenance client: Yes/No - ₹[X]/month
- Upsell opportunities: Blog/SEO/Social/Ads
- Referral likelihood: High/Medium/Low
- Referred us to: [Other clients if any]

└─ Next follow-up date: [Date]

NOTES:

└─ [Any important info about client preferences,
requirements, special situations]

2. FREELANCER TRACKING (Zoho People - Contractor Module)

FREELANCER PROFILE: [Name]

BASIC INFO:

- Full Name: [Name]
- Skills: [Designer/Developer/Content Writer/SEO/Video]
- Phone: [Number]
- Email: [Email]
- Location: [City/Country]
- Payment Method: UPI/Bank/PayPal/Payoneer
- Rate: ₹[X]/hour OR ₹[X] per project type

PROFESSIONAL DETAILS:

- Platform found: Upwork/Fiverr/Local/Referral
- Portfolio: [Link]
- Years experience: [X]
- Primary tools: [Figma/WordPress/React/etc.]
- Availability: Full-time/Part-time/Project-based

WORK HISTORY WITH US:

- First project: [Date] - [Project Name]
- Total projects completed: [X]
- Total earned from us: ₹[X]
-
- Projects List:
 - [Date] - [Project Name] - [Role] - ₹[Paid] [Link to Project]
 - [Date] - [Project Name] - [Role] - ₹[Paid] [Link to Project]
 - [Date] - [Project Name] - [Role] - ₹[Paid] [Link to Project]

PERFORMANCE METRICS:

- Quality rating: [1-5 stars] [Average across projects]
- Timeliness: [1-5 stars] [Delivers on time?]
- Communication: [1-5 stars] [Responsive?]
- Revision rate: [Low/Medium/High]
- Client satisfaction: [Feedback from projects]
- Overall rating: [1-5 stars]

RELIABILITY:

- Missed deadlines: [X] times
- Quality issues: [X] times
- Communication issues: [X] times
- Ghosted project: Yes/No - [If yes, details]
- Would hire again: Yes/No - [Reason]

PAYMENT HISTORY:

- Total paid to date: ₹[X]
- Average payment per project: ₹[X]

- └─ Payment terms: Advance/Milestone/Completion
- └─ Payment disputes: [Any issues?]
- └─ Invoices: [Links to expense entries in Zoho Books]

SPECIALIZATIONS:

- └─ Best at: [e.g., "Restaurant websites", "E-commerce"]
- └─ Weaknesses: [e.g., "Slow with revisions"]
- └─ Preferred project types: [List]
- └─ Not good for: [Project types to avoid]

CURRENT STATUS:

- └─ Available/Busy until [Date]
- └─ Current project with us: [Name] - [Status]
- └─ Next available: [Date]

NOTES:

- └─ [Special notes: timezone, working hours, preferences, personal details that help]

C. COMPLETE TRACKING DASHBOARD (Zoho Analytics)

YOUR COMMAND CENTER - Single View of Everything:

DASHBOARD: Business Overview

TODAY'S SNAPSHOT:

- └─ Active projects: [X]
- └─ Projects in review: [X]
- └─ Projects launching this week: [X]

— On-time delivery: [X]%

LAYER 3: PRODUCTION SOPs (Website Type-Specific)

The SOP Framework Structure

For EACH Website Type, You'll Create:

SOP DOCUMENT: [Website Type] Production Workflow

1. CLIENT REQUIREMENTS

- └─ Questions to ask
- └─ Content to collect
- └─ Decisions to confirm
- └─ [YOUR RESEARCH FILLS THIS]

2. STANDARD SITEMAP

- └─ Required pages (all projects)
- └─ Optional pages (based on budget)
- └─ Page hierarchy
- └─ [YOUR RESEARCH FILLS THIS]

3. CONTENT REQUIREMENTS (Per Page)

- └─ Text content needed
- └─ Images needed (type, size, quantity)
- └─ Videos needed (if applicable)
- └─ [YOUR RESEARCH FILLS THIS]

4. AI GENERATION PROMPTS

- └─ Content prompts (Gemini/Claude)
- └─ Image prompts (Imagen/Leonardo)
- └─ Video prompts (Veo)
- └─ [YOUR RESEARCH FILLS THIS]

5. DESIGN SPECIFICATIONS

- └─ Layout style
- └─ Color schemes
- └─ Typography
- └─ Component library
- └─ [YOUR RESEARCH FILLS THIS]

6. DEVELOPMENT CHECKLIST

- └─ Technical setup steps
- └─ Plugins/tools required
- └─ Integrations needed
- └─ Testing checklist
- └─ [YOUR RESEARCH FILLS THIS]

7. FREELANCER BRIEF TEMPLATE

- └─ What to send designer
- └─ What to send developer
- └─ What to send content writer
- └─ [YOUR RESEARCH FILLS THIS]

8. QUALITY CONTROL CHECKLIST

- └─ Design review points
- └─ Functionality checks
- └─ Content review
- └─ SEO basics
- └─ [YOUR RESEARCH FILLS THIS]

9. TIME & COST ESTIMATES

- └─ Your time: [X] hours
- └─ Freelancer time: [X] hours
- └─ Total timeline: [X] days
- └─ Cost breakdown
- └─ [YOUR RESEARCH FILLS THIS]

10. CLIENT HANDOVER PACKAGE

- └─ What to deliver
- └─ Training topics
- └─ Documentation needed
- └─ [YOUR RESEARCH FILLS THIS]

SOP TEMPLATE STRUCTURE (You Fill Variables)

I'll create the framework with VARIABLES you'll research and fill:

SOP #1: RESTAURANT/CAFÉ WEBSITE

1. CLIENT REQUIREMENTS

Discovery Call Questions:

BASIC INFO:

- [] Restaurant name:
- [] Cuisine type: [VARIABLE: You research common cuisines]
- [] Location/s:
- [] Phone, email:
- [] Operating hours:
- [] Dine-in/Delivery/Takeout: [Which services?]

MENU:

- [] Do you have digital menu?
- [] How many items approximately: [VARIABLE: Your research determines if too many for website vs. PDF]
- [] Prices on website: Yes/No

- [] Special dietary options: [Vegetarian/Vegan/Gluten-free/etc.]

ONLINE ORDERING:

- [] Want online ordering: Yes/No
- [] Use Swiggy/Zomato: Yes/No [Just link or integrate?]
- [] Table booking needed: Yes/No

MEDIA:

- [] Food photos available: Yes/No/Need photoshoot
- [] Interior photos: Yes/No
- [] Chef/staff photos: Yes/No
- [] Want video: Yes/No

GOALS:

- [] Main goal: [VARIABLE: Research common goals]
Options: More walk-ins / Online orders / Brand awareness / Event bookings

2. STANDARD SITEMAP

RESTAURANT WEBSITE SITEMAP:

Required Pages (Every Restaurant Project):

- | — [Research: How many photos minimum?]
- | — [Research: Organization - by dish type/events/interior?]
- |
- | — Contact/Location
 - | — [VARIABLE]
 - | — Google Maps
 - | — Hours
 - | — Phone/email
 - | — Directions
- |
- | — Legal (Privacy Policy)

Optional Pages (Based on Budget):

- | — Online Ordering (₹[VARIABLE: Price for this feature])
- | — Catering Services (₹[VARIABLE])
- | — Events/Banquet Hall (₹[VARIABLE])
- | — Blog/Recipes (₹[VARIABLE])
- | — Careers (₹[VARIABLE])

TOTAL PAGES:

- Basic Package: [VARIABLE: Your research] pages
- Standard Package: [VARIABLE] pages
- Premium Package: [VARIABLE] pages

3. CONTENT REQUIREMENTS

Homepage Content Needs:

SECTION 1: HERO

Text:

- | — Headline: [VARIABLE: Research formula]
 - | — Example: "[Cuisine Type] Restaurant in [City]"
 - | — Length: [X] characters max
- | — Subheadline: [VARIABLE]
 - | — Example: "Authentic [X] cuisine since [Year]"
- | — CTA Button: [VARIABLE]
 - | — Options you'll research: "View Menu" / "Book Table" / "Order Now"

Images:

- | — Hero image: [VARIABLE: Specifications you'll research]
 - | — Size: [Width] x [Height] px
 - | — Type: Signature dish / Interior / Chef
 - | — Quality: High-res, [X]KB max
 - | — AI Prompt Template: [You'll create after research]

- |
- └─ Mobile hero: [VARIABLE]
 - └─ Size: [Width] x [Height] px

SECTION 2: ABOUT PREVIEW

Text:

- └─ Heading: [VARIABLE]
- └─ Body: [VARIABLE: How many words?]
- └─ [You research what resonates for restaurants]

Images:

- └─ [VARIABLE: Chef photo? Interior? Both?]
- └─ Size: [You research]

SECTION 3: MENU HIGHLIGHTS

Text:

- └─ [VARIABLE: How many items to showcase?]
- └─ [Research: Item name + description format]
- └─ [Research: Show prices or not?]

Images:

- └─ Per dish: [VARIABLE: Size specs]
- └─ Style: [VARIABLE: Your research on food photo style]
- └─ AI generation tips: [You'll develop]

SECTION 4: GALLERY PREVIEW

Images:

- └─ Number: [VARIABLE: Your research]
- └─ Layout: [Grid X×Y] [You determine]
- └─ Clicking opens: [Lightbox/Full gallery page]

SECTION 5: LOCATION & HOURS

Text:

- └─ Address format: [VARIABLE]
- └─ Hours display: [VARIABLE: Table/List format?]
- └─ Map: Google Maps embed code

SECTION 6: TESTIMONIALS/REVIEWS

Text:

- └─ Number to show: [VARIABLE]
- └─ Format: [VARIABLE: Slider/Grid?]
- └─ Include: Name, rating, review text, photo?
- └─ Source: [VARIABLE: Google/Zomato/Custom?]

SECTION 7: RESERVATIONS CTA

- └─ Form fields: [VARIABLE: You research]
- | Options: Name, phone, date, time, party size, special requests

- └─ Integration: [VARIABLE: OpenTable/Custom/Email?]
- └─ Button text: [VARIABLE]

About Page Content:

[VARIABLE: Your entire research goes here]

You'll define:

- Heading
- Story length (words)
- Sections (History/Chef/Values?)
- Images needed (number, types, sizes)
- Video option (Yes/No, length, content)

Menu Page Content:

[VARIABLE: Complete research needed]

You'll define:

- Organization method (Appetizers/Mains/Desserts OR Breakfast/Lunch/Dinner)
- Item information (Name/Description/Price/Dietary icons)
- PDF option (Yes/No - when to use)
- Update frequency (Important for client training)
- AI generation templates for menu descriptions

Gallery Page Content:

[VARIABLE: Your research]

You'll define:

- Minimum photos: [X]
- Recommended: [X]
- Categories: [Food/Interior/Events/Chef?]
- Display: [Grid layout specs]
- Lightbox: [Yes/No, which plugin?]

Contact Page Content:

[VARIABLE]

You'll define:

- All elements needed
- Form fields

- Map size/position
- Additional elements

4. AI GENERATION PROMPTS

Content Generation (Gemini/Claude):

[VARIABLE: You'll create these after research]

Homepage Hero:

Prompt Template:

"Write a compelling headline and subheadline for a [Cuisine Type] restaurant in [City] called [Name].

Details:

- Established: [Year]
- Specialty: [X]
- Unique selling point: [X]
- Target audience: [Families/Couples/Business/etc.]
- Tone: [Warm/Sophisticated/Casual/etc.]

Format:

- Headline: Max [X] characters
- Subheadline: Max [X] characters
- 1 short tagline

Focus on: [VARIABLE: Your research on what works]"

About Us Story:

[VARIABLE: You create template]

Menu Item Descriptions:

Prompt Template:

"Write appetizing description for [Dish Name], a [Cuisine] dish.

Ingredients: [List]

Preparation: [Brief]

Taste profile: [X]

Requirements:

- Length: [X] words
- Tone: [Enticing but not over-the-top]
- Include: [Dietary info if applicable]
- Avoid: [VARIABLE: Your research on what NOT to say]"

[Continue for each content type...]

Image Generation (Imagen/Leonardo):

[VARIABLE: You'll develop these]

HERO IMAGE - SIGNATURE DISH:

Prompt Template:

"Professional food photography of [Dish Name], [Cuisine Type],
[Description of dish]

Style:

- Overhead/45-degree/[Your research on best angle]
- Natural lighting/Studio/[Your research]
- [Background style]
- [Styling elements - garnish, etc.]

Technical:

- High resolution
- Sharp focus on [main element]
- Depth of field: [Shallow/Deep]
- Color grading: [Warm/Cool/Natural]
- Composition: [Rule of thirds/Center/etc.]

--ar [VARIABLE: Aspect ratio you determine]

--style [VARIABLE]"

INTERIOR SHOT:

[VARIABLE: You create]

CHEF PHOTO:

[VARIABLE: You create]

[Templates for all image types...]

Video Generation (Veo):

[VARIABLE: If offering video option]

RESTAURANT TOUR VIDEO:

Prompt Template:

[You'll research and create]

DISH PREPARATION VIDEO:

[You'll research and create]

5. DESIGN SPECIFICATIONS

[VARIABLE: Complete design system you'll research]

COLOR SCHEMES:

Research and define:

- Primary color: [For restaurant type]
- Secondary color:
- Accent color:
- Background colors:
- Text colors:

Common schemes by cuisine:

- Italian: [VARIABLE]
- Indian: [VARIABLE]
- Fast food: [VARIABLE]
- Fine dining: [VARIABLE]

TYPOGRAPHY:

[VARIABLE: Your research]

- Headings font: [Google Font name]
- Body font: [Google Font name]
- Menu font: [Readable and appetizing]

LAYOUT STYLE:

[VARIABLE]

- Grid system: [X] columns
- Spacing: [Consistent padding/margins]
- Section divisions: [How to separate?]

COMPONENT LIBRARY:

- Buttons: [Style specs]
- Cards: [For menu items]
- Forms: [Style]
- Navigation: [Fixed/Scroll/Mega menu?]

[All specs you research and standardize]

6. DEVELOPMENT CHECKLIST

[VARIABLE: Complete technical specs]

WORDPRESS SETUP:

- [] Theme: [VARIABLE: Which theme works best?]
- [] Required Plugins:
 - [] [VARIABLE: Contact form plugin]
 - [] [VARIABLE: Gallery plugin]
 - [] [VARIABLE: Menu plugin if needed]
 - [] [VARIABLE: Booking plugin if needed]
 - [] [VARIABLE: SEO plugin]
 - [] [Additional based on your research]

PAGES TO CREATE:

[From sitemap above]

MENU SYSTEM:

- [] [VARIABLE: Best method - Custom post type/Plugin/Static pages?]
- [] [Your research determines workflow]

INTEGRATION REQUIREMENTS:

- [] Google Maps: [Embed code process]
- [] Social media: [Links/Feeds]
- [] Online ordering: [VARIABLE: Integration method]
- [] Table booking: [VARIABLE: Integration method]
- [] Payment (if applicable): [VARIABLE: Gateway setup]

MOBILE OPTIMIZATION:

- [] [VARIABLE: Key elements to check]
- [] [Your research on common mobile issues]

SPEED OPTIMIZATION:

- [] [VARIABLE: Image compression process]
- [] [VARIABLE: Caching setup]
- [] [VARIABLE: Other optimization steps]

SEO BASICS:

- [] [VARIABLE: On-page elements checklist]
- [] [VARIABLE: Local SEO specific to restaurants]

TESTING CHECKLIST:

- [] All links work
- [] Forms submit correctly

- [] [VARIABLE: Restaurant-specific tests]
- [] [Complete list from your research]

7. FREELANCER BRIEF TEMPLATE

For Designer:

[VARIABLE: You'll create complete brief template]

PROJECT: Restaurant Website Design

CLIENT: [Name]

CUISINE: [Type]

VIBE: [Casual/Upscale/etc.]

DELIVERABLES NEEDED:

- [] Homepage mockup (Desktop + Mobile)
- [] [VARIABLE: Which other pages need design?]
- [] [Your research determines]

DESIGN GUIDELINES:

- Color scheme: [Provide palette]
- Font choices: [Provide]
- Reference sites: [List 2-3 examples]
- Special requirements: [VARIABLE]

FILES TO DELIVER:

- [VARIABLE: Format specifications]
- [Your research on handoff process]

TIMELINE: [X] days

BUDGET: ₹[X]

REVISION ROUNDS: [X]

[Complete template after research]

For Developer:

[VARIABLE: Complete brief you'll create]

PROJECT: Restaurant Website Development

DESIGN FILES: [Link]

TECHNICAL REQUIREMENTS:

- Platform: WordPress
- Theme: [Specific theme]
- Plugins: [List]
- [VARIABLE: All specs from your research]

FUNCTIONALITY:

- [] [List all interactive elements]
- [] [VARIABLE: Your complete checklist]

DELIVERABLES:

- [] [VARIABLE: What exactly to deliver]
- [] [Your research determines]

TIMELINE: [X] days

BUDGET: ₹[X]

[Complete template]

For Content Writer:

[VARIABLE: If outsourcing content]

[Complete brief template after research]

8. QUALITY CONTROL CHECKLIST

[VARIABLE: Your comprehensive QC process]

DESIGN REVIEW:

- [] [VARIABLE: Visual elements to check]
- [] [Your research creates full list]

CONTENT REVIEW:

- [] [VARIABLE: What to verify]
- [] [Spelling/grammar/tone/accuracy]

FUNCTIONALITY:

- [] [VARIABLE: All interactive elements]
- [] [Forms/menus/booking/etc.]

RESTAURANT-SPECIFIC:

- [] Menu accuracy: All items, prices, descriptions
- [] [VARIABLE: Other specific checks]

SEO:

- ☐ [VARIABLE: Local SEO checklist]
- ☐ [Restaurant-specific SEO elements]

MOBILE:

- ☐ [VARIABLE: Critical mobile checks]

SPEED:

- ☐ GTmetrix score: [VARIABLE: Target score]
- ☐ [Other speed metrics]

[Complete QC checklist from research]

9. TIME & COST ESTIMATES

[VARIABLE: Based on your experience/research]

TIMELINE BREAKDOWN:

Phase 1: Setup & Content (Days 1-2)

- Your time: [X] hours
- ☐ Domain/hosting setup: [X] hours
- ☐ Content collection/generation: [X] hours
- ☐ Image sourcing/generation: [X] hours

Phase 2: Design (Days 3-4)

- Freelancer time: [X] hours
- Cost: ₹[VARIABLE: Your research]
- Your time (review/feedback): [X] hours

Phase 3: Development (Days 5-7)

- Freelancer time: [X] hours
- Cost: ₹[VARIABLE]
- Your time (QC/testing): [X] hours

Phase 4: Content Population (Day 8)

- Your time: [X] hours
- OR Freelancer: [X] hours, ₹[VARIABLE]

Phase 5: Review & Launch (Days 9-10)

- Your time: [X] hours

TOTAL ESTIMATES:

Project Type: Restaurant Website (Basic)

- └─ Your time: [VARIABLE: X] hours
- └─ Freelancer Designer: [X] hours = ₹[VARIABLE]
- └─ Freelancer Developer: [X] hours = ₹[VARIABLE]
- └─ Tools/Hosting: ₹[VARIABLE]
- └─ Total Cost: ₹[VARIABLE]
- └─ Client Price: ₹[VARIABLE: Based on market research]
- └─ Your Profit: ₹[VARIABLE]

[Create similar breakdown for Standard and Premium packages]

10. CLIENT HANDOVER PACKAGE

[VARIABLE: What to deliver - your research]

DELIVERABLES:

- [] Live website URL
- [] Admin access (credentials in Zoho Vault)
- [] Training video covering:
 - [] [VARIABLE: Menu updates process]
 - [] [VARIABLE: Hours/contact changes]
 - [] [VARIABLE: Image uploads]
 - [] [VARIABLE: Blog posts if included]
- [] Handover document including:
 - [] [VARIABLE: Everything client needs to know]
 - [] [Your research determines]
- [] [VARIABLE: Other deliverables specific to restaurants]

POST-LAUNCH SUPPORT (30 days):

- [VARIABLE: What's included]
- [Your research on common issues]

MAINTENANCE UPSELL:

- [VARIABLE: What to offer for monthly maintenance]
- [Your research on restaurant website ongoing needs]

NOW - YOUR RESEARCH TEMPLATE FOR EACH WEBSITE TYPE

Research Checklist (You Fill This For Each Website Type)

WEBSITE TYPE: [Restaurant/E-commerce/Portfolio/etc.]

RESEARCH PHASE 1: COMPETITIVE ANALYSIS

- ☐ Find 20-30 websites of this type
- ☐ Analyze top 10 (what makes them good?)
- ☐ Note common patterns:
 - ☐ Standard pages used
 - ☐ Common sections per page
 - ☐ Features that appear on most
 - ☐ Design trends
 - ☐ Content structure
- ☐ Identify what differentiates basic vs. premium

RESEARCH PHASE 2: CLIENT NEEDS

- ☐ What questions do clients of this type ask?
- ☐ What are their main goals?
- ☐ What content do they typically have?
- ☐ What content do they typically NOT have?
- ☐ Common pain points
- ☐ Decision factors (what makes them choose you?)

RESEARCH PHASE 3: CONTENT REQUIREMENTS

- ☐ For each page:
 - ☐ Sections needed
 - ☐ Text length (words/characters)
 - ☐ Images needed (quantity, type, size)
 - ☐ Videos (yes/no, type, length)
- ☐ AI prompt formulas that work
- ☐ Content that converts best

RESEARCH PHASE 4: TECHNICAL REQUIREMENTS

- ☐ Best platform (WordPress/Webflow/Custom)
- ☐ Recommended themes/templates
- ☐ Required plugins/integrations
- ☐ Common technical challenges
- ☐ Mobile considerations
- ☐ Speed optimization needs
- ☐ SEO specifics for this type

RESEARCH PHASE 5: PRICING RESEARCH

- ☐ What do competitors charge?
- ☐ Basic package features + price
- ☐ Standard package features + price
- ☐ Premium package features + price
- ☐ Upsell opportunities
- ☐ Maintenance pricing

RESEARCH PHASE 6: FREELANCER REQUIREMENTS

- [] Designer: What skills needed?
- [] Developer: What skills needed?
- [] Typical freelancer costs
- [] What to include in brief
- [] Common mistakes freelancers make

RESEARCH PHASE 7: TIMELINE

- [] Industry standard delivery time
- [] Your realistic timeline with freelancers
- [] Rush delivery possibility (cost premium)
- [] Bottleneck points (where delays happen)

RESEARCH PHASE 8: QUALITY STANDARDS

- [] What makes a great [website type]?
- [] Common mistakes to avoid
- [] Testing checklist specific to type
- [] Client satisfaction metrics

YOUR RESEARCH & DOCUMENTATION WORKFLOW

How to Build Each Website Type SOP (Step by Step)

WEEK-BY-WEEK PLAN:

WEEK 1: Restaurant/Café Websites (Start Here - Most Common)

Monday: Research Phase

- ☐ Spend 4-6 hours researching restaurant websites
- ☐ Analyze 20-30 examples
- ☐ Take notes in Zoho Writer document
- ☐ Screenshot examples (save in Zoho Docs)

Tuesday: Document Creation Phase 1

- ☐ Create "Client Requirements Checklist" (2 hours)
- ☐ Create "Standard Sitemap" document (2 hours)
- ☐ Create "Content Requirements" per page (3 hours)

Wednesday: AI Prompts Development

- ☐ Test different prompts with Gemini/Claude (3 hours)
- ☐ Test image prompts with Imagen/Leonardo (2 hours)
- ☐ Document what works best (2 hours)
- ☐ Create "AI Prompt Library" document

Thursday: Technical Specifications

- ☐ Create "Design Specifications" (2 hours)
- ☐ Create "Development Checklist" (3 hours)
- ☐ Test on actual WordPress setup (2 hours)

Friday: Freelancer Management Docs

- ☐ Create "Freelancer Brief - Designer" template (2 hours)
- ☐ Create "Freelancer Brief - Developer" template (2 hours)
- ☐ Create "Quality Control Checklist" (2 hours)

Saturday: Finalization

- ☐ Create "Time & Cost Estimates" (2 hours)
- ☐ Create "Handover Package Template" (2 hours)
- ☐ Review all documents (1 hour)
- ☐ Test workflow on mock project (3 hours)

Sunday: Rest OR Start research for next website type

WEEK 2: Business/Corporate Websites [Follow same daily breakdown]

WEEK 3: Portfolio Websites [Follow same daily breakdown]

Continue until you've covered all main website types...

USING YOUR SOPs WITH FREELANCERS

Complete Freelancer Workflow Using SOPs

SCENARIO: New Restaurant Website Project

Step 1: Win Client → Assign to Freelancers

IN ZOHO PROJECTS:

Create Project: "Tandoor House - Restaurant Website"

Attach SOPs:

- └ Restaurant Website - Client Requirements ✓
- └ Restaurant Website - Standard Sitemap ✓
- └ Restaurant Website - Content Requirements ✓
- └ Restaurant Website - Quality Checklist ✓

Assign Tasks:

TASK 1: Design Homepage

- └ Assigned to: [Freelancer Designer Name]
- └ Attach: Freelancer Brief - Designer (from SOP)
- └ Attach: Design Specifications (from SOP)
- └ Deadline: [Date]
- └ Budget: ₹[Amount from SOP estimates]
- └ Deliverable: Figma/PSD file of homepage

TASK 2: Design Inner Pages

- └ Same structure as above
- └ [Following SOP checklist]

TASK 3: WordPress Development

- └ Assigned to: [Freelancer Developer Name]
- └ Attach: Freelancer Brief - Developer (from SOP)
- └ Attach: Development Checklist (from SOP)
- └ Starts after: Design approval
- └ Deadline: [Date]
- └ Budget: ₹[Amount from SOP]

TASK 4: Content Population

- └ Assigned to: You OR Content Writer
- └ Using: AI Prompt Library from SOP
- └ [Following content requirements from SOP]

TASK 5: Quality Control

- └ Assigned to: You
- └ Using: QC Checklist from SOP
- └ Before client review

ALL VARIABLES PRE-FILLED FROM YOUR SOP RESEARCH!

Step 2: Freelancer Receives Clear Brief

They Get (Automatically from Zoho Projects):

 Email Notification:

"New Project Assigned: Tandoor House Restaurant Website

Hi [Freelancer Name],

You've been assigned to design the homepage for our new restaurant website project.

PROJECT DETAILS:

Client: Tandoor House (Indian Restaurant)

Your Role: Homepage Design

Deadline: [Date]

Budget: ₹[Amount]

ATTACHED DOCUMENTS:

1. Designer Brief (detailed requirements)
2. Design Specifications (colors, fonts, style)
3. Content Requirements (what goes on page)
4. Reference Examples (3 sites to inspire)
5. Client Info & Brand Assets

DELIVERABLE:

Figma file with homepage design (desktop + mobile)

STEPS:

1. Review all attached documents
2. Ask questions in project comments (within 24 hours)
3. Submit draft design by [Date]
4. Incorporate feedback (1 round included)
5. Submit final by [Deadline]

Questions? Comment on task in Zoho Projects.

Thanks!

[Your Name]"

Everything they need is IN THE SOP documents you created!

No back-and-forth, no confusion, clear expectations.

Step 3: Progress Tracking (Automatic from SOPs)

ZOHO PROJECTS SHOWS:

Task: Homepage Design
Status: In Progress
Assigned: [Freelancer Name]
Due: [Date]
Time logged: [X] hours

Checklist (from SOP):

- ☐ Hero section designed
- ☐ About preview section
- ☐ Menu highlights section
- ☐ Location section
- ☐ Testimonials section
- ☐ CTA section
- ☐ Mobile responsive version
- ☐ Brand colors applied
- ☐ Fonts applied
- ☒ Submitted for review

Freelancer updates checklist → You see progress in real-time

Step 4: Quality Control (Using SOP Checklist)

When freelancer submits work, you check against SOP:

DESIGN QC CHECKLIST (From Restaurant SOP):

- ☐ Matches brand colors
- ☐ Fonts correct
- ☐ All sections included
- ☐ Mobile responsive
- ☐ [All items from your SOP research]

PASS? → Approve → Move to development
FAIL? → Provide feedback → Request revision

Step 5: Payment (Tracked in Zoho Books)

Task Complete → Mark as Done

Zoho Projects → Creates Expense Entry in Zoho Books:

Date: [Date]

Vendor: [Freelancer Name]

Category: Freelancer - Designer

Project: Tandoor House Restaurant

Amount: ₹[Amount from SOP estimate]

Status: To Pay

You approve → Pay freelancer → Mark as Paid

ALL TRACKED PER PROJECT!

COMPLETE LIFECYCLE IN ACTION

Example: Full Project from Start to Finish

CLIENT: "Saffron Kitchen" - Indian Restaurant

PHASE 1: CLIENT ACQUIRED (Find → Get)

Day 0:

- └─ Lead generated: Walk-in to restaurant
- └─ Discovery call scheduled: Zoho Meeting
- └─ Call recorded & saved: Zoho Docs
- └─ Client added to CRM: Status "Qualified"
- └─ Used SOP: "Discovery Call Script"

Day 1:

- └─ Proposal sent: Using SOP template
- └─ Contract sent: Zoho Sign
- └─ Client signed: Digital signature received
- └─ Invoice sent: 50% advance (₹25,000)
- └─ Payment received: Recorded in Zoho Books

PHASE 2: PROJECT SETUP (Get → Distribute)

Day 2:

- └─ Project created: Zoho Projects
- └─ All restaurant SOPs attached to project
- └─ Content questionnaire sent: Zoho Forms
- └─ Client filled form: Auto-saved in project

YOU (Project Manager):

- └─ Review questionnaire responses
- └─ Use "Content Requirements SOP" to identify gaps
- └─ Generate missing content using "AI Prompt Library SOP"
- └─ Content ready: Text for all pages

CONTENT STATUS:

- └─ Client provided:
 - | └─ Logo ✓
 - | └─ Menu (PDF) ✓
 - | └─ 10 food photos ✓
 - | └─ Business info ✓
- └─ You generated with AI:
 - | └─ Homepage copy (Gemini) ✓
 - | └─ About us story (Claude) ✓
 - | └─ Menu descriptions (Gemini) ✓
 - | └─ 15 additional images (Imagen) ✓
 - | └─ 30-sec promo video (Veo) ✓

PHASE 3: WORK DISTRIBUTION TO FREELANCERS

Day 3: ASSIGN DESIGNER

Create Task in Zoho Projects:

- └─ Task: "Design Homepage + 3 Inner Pages"
- └─ Assign to: Priya (Freelance Designer) - [Zoho People link]
- └─ Attach: Designer Brief (from SOP)
- └─ Attach: Design Specs (from SOP)
- └─ Attach: All content & images
- └─ Deadline: 3 days
- └─ Budget: ₹12,000
- └─ Deliverable: Figma file

Priya receives notification → Downloads everything → Starts work

Day 4-5: DESIGN IN PROGRESS

- └─ Priya logs time: 8 hours
- └─ Priya updates checklist items (from SOP)

- └─ You monitor progress: Daily Zoho Projects dashboard
- └─ No need to micromanage - SOP is clear!

Day 6: DESIGN REVIEW

- └─ Priya submits: Figma link in project comments
 - └─ You review using: "Quality Control Checklist" (from SOP)
 - └─ Feedback: Minor color change request
 - └─ Priya revises: Same day
 - └─ Approved: Ready for development
-

Day 6: ASSIGN DEVELOPER

Create Task in Zoho Projects:

- └─ Task: "WordPress Development"
- └─ Assign to: Rahul (Freelance Developer) - [Zoho People link]
- └─ Attach: Developer Brief (from SOP)
- └─ Attach: Development Checklist (from SOP)
- └─ Attach: Approved designs (Figma link)
- └─ Attach: Content documents
- └─ Deadline: 4 days
- └─ Budget: ₹18,000
- └─ Deliverable: Live staging site

Rahul receives → Has EVERYTHING he needs → Starts work

Day 7-9: DEVELOPMENT IN PROGRESS

- └─ Rahul logs time daily
- └─ Updates checklist (from SOP):
 - | ☒ WordPress installed
 - | ☒ Theme setup
 - | ☒ Homepage built
 - | ☒ Inner pages built
 - | ☒ Forms configured
 - | ☐ Mobile optimization
 - | ☐ Speed optimization
 - | ☐ Testing
- └─ You check progress: Quick 5-min daily review
- └─ Everything on track!

Day 10: DEVELOPMENT COMPLETE

- └─ Rahul submits: Staging URL + admin login
- └─ You test using: "Development Checklist" (from SOP)
- └─ Few small bugs found
- └─ Rahul fixes: Same day
- └─ Approved: Ready for content

Day 11: YOU POPULATE CONTENT

Using your "Content Requirements SOP":

- └─ Upload all AI-generated text
 - └─ Upload all images (client + AI-generated)
 - └─ Format menu properly
 - └─ Add video to homepage
 - └─ Double-check using SOP checklist
 - └─ Time spent: 4 hours
 - └─ Site complete!
-

PHASE 4: CLIENT REVIEW & LAUNCH

Day 12: CLIENT REVIEW

- └─ Send preview link: Via Zoho Mail
- └─ Schedule review call: Zoho Meeting
- └─ Client feedback:
 - └─ "Love it!"
 - └─ Change 1: One menu item update
 - └─ Change 2: Different phone number
- └─ You make changes: 30 minutes
- └─ Final approval received!

Day 13: LAUNCH

- └─ Send final invoice: ₹25,000 balance
 - └─ Payment received: Same day
 - └─ Make site live: Point domain
 - └─ Test everything: Using SOP checklist
 - └─ Send handover package: Using SOP template
 - └─ Handover email
 - └─ Training video (Loom - 10 min)
 - └─ Login credentials
 - └─ All documentation
 - └─ Project status: COMPLETED!
-

PHASE 5: POST-PROJECT TRACKING

ZOHO SYSTEMS UPDATE:

Zoho CRM:

- └─ Contact status: Customer
- └─ Deal value: ₹50,000
- └─ Next action: Upsell maintenance (30 days)

Zoho Projects:

- └─ Project: Marked Complete
- └─ Time tracking:
 - | └─ Your time: 15 hours
 - | └─ Designer time: 12 hours
 - | └─ Developer time: 22 hours
 - | └─ Total: 49 hours

Zoho Books:

- └─ Revenue: ₹50,000 (recorded)
- └─ Expenses:
 - | └─ Designer: ₹12,000
 - | └─ Developer: ₹18,000
 - | └─ Hosting/Domain: ₹2,000
 - | └─ Total: ₹32,000
- └─ Gross Profit: ₹18,000
- └─ Profit Margin: 36%
- └─ Your effective rate: ₹18,000 / 15 hours = ₹1,200/hour!

Zoho People (Freelancer Records):

- └─ Priya (Designer):
 - | └─ Projects completed: +1
 - | └─ Total earned: Updated
 - | └─ Rating this project: 5/5 (quality, speed, communication)
 - | └─ Available for: Next restaurant project!
- └─ Rahul (Developer):
 - | └─ Projects completed: +1
 - | └─ Total earned: Updated
 - | └─ Rating: 4.5/5 (had 2 small bugs, but fixed quickly)
 - | └─ Available for: Next project

Zoho Analytics (Dashboard Updates):

- └─ Projects this month: +1
- └─ Revenue this month: +₹50,000
- └─ Profit this month: +₹18,000
- └─ Restaurant websites completed: +1

TOTAL PROJECT TIME:

Your active time: 15 hours across 13 days

Freelancer management: Built into SOPs - minimal time needed!

Result: ₹18,000 profit in 13 days

IF YOU DID IT ALL YOURSELF:

Time needed: 35-40 hours

Profit: ₹50,000 - ₹2,000 = ₹48,000

BUT: Could only do 1 project at a time

WITH FREELANCERS + SOPs:

Your time: 15 hours

Profit: ₹18,000

BUT: Can run 3-4 projects simultaneously!

3 projects × ₹18,000 = ₹54,000 profit

Your time: 45 hours (still less than doing 1 alone!)

THIS IS SCALABILITY! 🚀

YOUR ACTION PLAN: Building the SOP Library

MONTH 1: Foundation SOPs (Not Website-Specific)

Week 1: Sales & Marketing SOPs

Create these 5 documents:

1. Lead Generation Process
2. Discovery Call Script
3. Proposal Creation Process
4. Contract & Payment Process
5. Follow-up & Conversion

Time: 2-3 hours per document = 10-15 hours total

Week 2: Project Management SOPs

Create these 6 documents:

1. Project Kickoff Process
2. Content Collection Process
3. Progress Tracking & Updates
4. Client Review Process
5. Launch & Handover Process
6. Post-Launch Support Process

Time: 15-20 hours total

Week 3: Freelancer Management SOPs

Create these 6 documents:

1. Finding & Vetting Freelancers
2. Onboarding Freelancers
3. Creating Project Briefs
4. Quality Control Process
5. Payment Process
6. Performance Evaluation

Time: 15-20 hours total

Week 4: First Website Type - Restaurant

Complete all 11 documents for Restaurant websites:

Research + Documentation = 25-30 hours

TEST IT:

- Find a friend's restaurant
- Run through entire workflow using SOPs
- Refine based on learnings

MONTH 2-3: Build Website Type SOPs

Priority Order (Based on Market Demand):

Week 5: Business/Corporate (Most common) **Week 6: Portfolio/Personal Brand** (Quick & easy) **Week 7: Salon/Spa** (Local, high demand) **Week 8: School/Educational** (Good money) **Week 9: Gym/Fitness** (Growing market) **Week 10: Healthcare/Medical** (Professional) **Week 11: Real Estate** (Specialized) **Week 12: E-commerce** (Complex, save for later)

Each week: 25-30 hours of research + documentation

TOOLS FOR BUILDING SOPs

1. Zoho Writer (Document Creation)

- Write all SOPs here

- Collaborate with future team members
- Export as PDF
- Store in Zoho Docs

2. Screen Recording (Visual SOPs)

- Use Loom (free)
- Record yourself doing the process
- Attach video to written SOP
- Example: "How to assign freelancer in Zoho Projects" - 5-min video

3. Screenshots (Visual Guides)

- Use Snagit or built-in tools
- Annotate screenshots
- Add to SOPs for clarity

4. Checklists (In Zoho Projects)

- Convert SOPs into task checklists
 - Reusable templates
 - Each project auto-has checklist
-

FINAL SYSTEM OVERVIEW

Your Complete Business in Zoho Ecosystem

CUSTOMER JOURNEY:

Lead (Zoho CRM)

→ Proposal (Zoho Writer)

→ Contract (Zoho Sign)

→ Invoice (Zoho Invoice)

→ Payment (Zoho Books)

→ Project (Zoho Projects)

→ Customer (Zoho CRM)

FREELANCER JOURNEY:

Found (Zoho Recruit or manually)

→ Onboarded (Zoho People)

→ Assigned Tasks (Zoho Projects)

→ Submit Work (Zoho Projects)

- Get Paid (Zoho Books Expense)
- Performance Tracked (Zoho People)

PROJECT JOURNEY:

Won Deal

- Project Created (with SOPs attached)
- Tasks Assigned (using SOP briefs)
- Progress Tracked (SOP checklists)
- Quality Checked (SOP QC lists)
- Client Review
- Launch
- Handover (SOP template)
- Complete

SOP JOURNEY:

Research Website Type

- Document in Zoho Writer
- Create 11 SOP documents
- Store in Zoho Docs
- Attach to relevant projects
- Freelancers follow SOPs
- Consistent quality
- Fast delivery
- Scalable business!

FINANCIAL JOURNEY:

Client pays (Zoho Invoice)

- Recorded as Income (Zoho Books)
- Pay freelancers (Zoho Expense)
- Pay tools (Zoho Expense)
- Profit calculated automatically
- Reports for CA (Zoho Books export)
- Tax filed (CA uses your reports)

ANALYTICS JOURNEY:

All data from above systems

- Zoho Analytics
- Dashboards showing:
 - Revenue trends
 - Profit margins
 - Best website types
 - Top freelancers
 - Client lifetime value
 - Where time goes
- Make data-driven decisions!

YOU NOW HAVE:

✅ Complete System Architecture

- Layer 1: Find → Get → Distribute model
- Layer 2: Lifecycle tracking (people + projects)
- Layer 3: Production SOPs (website type-specific)

✅ Exact Structure for SOPs

- 11 documents per website type
- Clear variables for your research
- Reusable templates

✅ Research Framework

- What to research
- How to document
- Where to store

✅ Implementation Workflow

- How to use SOPs with freelancers
- How everything connects in Zoho
- Real example: Full project walkthrough

✅ Your Action Plan

- Month-by-month SOP building schedule
 - Priority order for website types
 - Time estimates for each phase
-

NEXT STEP: START WITH ONE!

DON'T BUILD ALL SOPs AT ONCE!

Your First 30 Days:

Week 1:

- Set up Zoho One (if not done)
- Create basic sales SOPs
- Build YOUR website

Week 2:

- Create project management SOPs
- Find 2-3 potential freelancers
- Create freelancer management SOPs

Week 3-4:

- Research Restaurant/Café websites (your first type!)
- Create all 11 SOP documents for restaurants
- Test on mock/real project

Result: One COMPLETE, TESTED website type workflow

Then:

Month 2: Add 2 more website types (Business + Portfolio) **Month 3:** Add 2 more (Salon + School) **Month 4:** Add 2 more (Gym + Healthcare)

By Month 4: You have 6 website types = Cover 80% of local market!

FINAL MOTIVATION

You're building a **SYSTEM**, not just doing projects.

Most freelancers:

- Do everything themselves
- Reinvent the wheel each project
- Can't scale beyond their own time
- Burn out

YOU with this system:

- Documented processes (SOPs)
- Freelancer network (scale infinitely)
- Consistent quality (checklists)
- AI-powered (10x faster)
- Complete tracking (Zoho ecosystem)

Result:

A REAL BUSINESS that can:

- Run without you doing all the work
- Scale to ₹5-10L/month
- Eventually hire full-time team
- Become an agency

All starting with ₹1,800/month (Zoho One) + Free AI tools!

YOUR QUESTION ANSWERED:

"Now you define the structure and put the variables where my research is needed"

 **DONE!**

I've created:

1. Complete 3-layer system structure
2. SOP framework with all variable placeholders [VARIABLE]
3. Exactly what you need to research for each website type
4. Where to document everything (Zoho Docs structure)
5. How to use it with freelancers
6. Complete tracking system

Your job now:

- Research each website type (25-30 hours each)
- Fill in the [VARIABLE] placeholders
- Test the workflow
- Refine based on real projects

Start with restaurants. Do your research. Build those 11 documents. Test it.

Then you'll have a PROVEN system to replicate for every other website type!

Ready to build your SOP empire? 🚀:
