SYS-01: CLIENT ONBOARDING SYSTEM

Goal: Turn a lead into a paying, producing client in 48 hours — with zero confusion

1.1 THE ONBOARDING FLOW (Bird's Eye View)

1.2 DISCOVERY CALL SCRIPT (Copy & Use)

Before the call — prep in 5 minutes:

- Open  CRM (Zoho CRM / HubSpot / Dynamics 365) → create lead record
- Note their business name, website, social handles
- Glance at their Instagram/Facebook (30-second scan)

The Call (15 minutes):

[0:00 – 0:02] INTRO

"Hi [Name], thanks for taking my call. Quick 15 minutes — I just want to understand your business before I suggest anything. Sound good?"

[0:02 – 0:07] UNDERSTAND THEM (Ask these, take notes in  CRM)

- "Tell me about your business — what do you sell, who buys?"
- "What's your biggest challenge RIGHT NOW with social media?"
- "What have you tried before? What worked / didn't work?"
- "Who are your top 2–3 competitors?" (note their handles)

[0:07 – 0:10] SHOW YOU GET IT

- Repeat back what they said (mirror)
- "So basically, you need [X] and you're stuck on [Y]. Got it."
- Share ONE quick insight: "I see this exact problem with [industry] brands. The fix is usually [brief answer]. I can build a full plan for you."

[0:10 – 0:13] CLOSE THE NEXT STEP

- "Here's what I'll do: I'll put together a quick proposal with exact services, timeline, and pricing. I'll send it today."
- "If it looks good, we can start as early as [date]."
- "Any questions before I go?"

[0:13 – 0:15] WRAP

- "Great. Watch for my email today. Looking forward to working with you."

After the call — 2 minutes in  CRM:

- Update lead status → "Proposal Stage"
- Log call notes (pain points, competitors, budget hints)

SYS-02: CONTENT PLANNING & CALENDAR SYSTEM

Goal: Never stare at a blank screen. Always have 2 weeks of content planned.

2.1 THE CONTENT PILLARS FRAMEWORK

Every client needs 3–4 content pillars. This is the foundation of ALL content planning.

Universal Pillars (use for any business):

Pillar	Purpose	Example Posts	% of Calendar
EDUCATE	Build trust + authority	Tips, how-tos, myths busted, industry insights	30–35%
ENTERTAIN	Drive engagement + shares	Behind-the-scenes, humor, relatable, stories	25–30%
PROMOTE	Drive sales + leads	Products, offers, testimonials, CTAs	20–25%
INSPIRE	Build emotional connection	Customer stories, values, transformations, motivational	15–20%

How to customize per client:

- Restaurant → Replace INSPIRE with "Food Journey" (chef stories, ingredients)
- E-commerce → Replace ENTERTAIN with "Product Spotlight" (showcasing items)
- Coach → Replace PROMOTE with "Results" (client transformations)
- Fitness → Replace INSPIRE with "Transformation" (before/after, member stories)

2.2 CONTENT IDEA GENERATION (AI-Powered)

Tool:  Claude / Gemini / Copilot

The Prompt (copy-paste this):

"Generate 30 Instagram content ideas for a [INDUSTRY] business in India.

Organize by these pillars:

- Educate (10 ideas)
- Entertain (8 ideas)
- Promote (7 ideas)
- Inspire (5 ideas)

Each idea should include:

1. Topic title
2. Content format (Post / Reel / Story / Carousel)
3. Hook (first line caption)
4. Why it works (1 sentence)

Target audience: [AGE RANGE], [LOCATION], interested in [INTERESTS]

Trending in India: festivals, local culture, relatable humor"

Result: 30 content ideas in 30 seconds. Pick the best 20 for next month.

2.3 THE MONTHLY CONTENT CALENDAR

Tool:  Zoho Projects (task board) / Google Sheets / Microsoft Excel

Template Structure:

ROW HEADERS:

Column A: Date

Column G: Visual Idea (what image/video to create)

Column H: Status (Planned / In Progress / Created / Approved / Scheduled / Posted)

- ☐ Review NEXT WEEK's plan — adjust if needed
- ☐ Use 🤖 AI to generate ideas for any empty slots
- ☐ Assign creation tasks (if team): designer, editor, writer
- ☐ Set deadlines: All content for next week due by Wednesday
- ☐ Check festivals/events coming up (2-week lookahead)
- ☐ Done. Close laptop. ✅

2.5 CONTENT RECYCLING SYSTEM (Never Waste Good Content)

80/20 Rule: Your best-performing post can become 5 different pieces of content.

ORIGINAL POST (e.g., "5 Tips for Instagram Growth")

SPLITS INTO:

1. Feed Post (Carousel — the original)
2. Reel (Turn tip #1 into a 30-sec video)
3. Story Series (One tip per Story, 5 stories)
4. LinkedIn Post (Same tips, professional tone)
5. YouTube Short (60-sec video version)

REPURPOSE TRACKER (in 📁 shared folder):

Original Post: [link] — Posted [date] — Performance: [reach/engagement]

Reel Version: [link] — Posted [date] — Performance: [reach/engagement]

Story Version: Posted [date] — Views: [X]

LinkedIn: [link] — Posted [date] — Impressions: [X]

Short: [link] — Posted [date] — Views: [X]

Rule: Every piece of content that gets 2x+ average engagement → recycle it into 3 new formats.

5. DONE ✅

3.4 REEL/VIDEO PRODUCTION SYSTEM

Tool: 📱 CapCut Free (1st) / DaVinci Resolve Free (2nd) / Adobe Premiere (3rd)

THE 5-STEP REEL FORMULA

STEP 1: HOOK (0–2 seconds)

- Text on screen: Bold, big, curiosity-gap
- Example: "This ONE trick..." / "POV:" / "Wait for it..."
- Audio: Trending sound (check CapCut/Reels trending list)

STEP 2: PROMISE (2–5 seconds)

- What viewer will GET if they watch
- Example: "...will 10x your Instagram growth"

STEP 3: CONTENT (5–25 seconds)

- The actual value/entertainment
- Fast cuts every 2–3 seconds (keeps attention)
- Text overlays on each clip (captions for silent viewers)

STEP 4: PROOF/PUNCHLINE (25–40 seconds)

- Result or payoff
- "See? That's how [result]"

STEP 5: CTA (40–60 seconds)

- "Follow for more" / "Save this" / "Try this"
- End on a hook that makes them want to rewatch

REEL PRODUCTION CHECKLIST

- ☐ Pick trending audio (check platform daily — top 5 sounds)
- ☐ Script the text overlays (use AI caption as base)
- ☐ Film/collect clips (phone camera OK — 1080p minimum)
- ☐ Edit in 📱 CapCut:

 - Adjust speed (slight speed-up = more dynamic)
- ☐ Export: 1080×1920px, MP4
- ☐ Add cover thumbnail (use 🎨 Canva template)
- ☐ DONE ✅

3.5 PRODUCTION BATCH SCHEDULE

80/20 Rule: Batch all content creation into 2 days. Spend other days on engagement & strategy.

SCHEDULE  — Done. Go do something else.

AUTO-POSTED AT SCHEDULED TIME

4.3 SCHEDULING RULES (Never Break These)

- Schedule 3–7 days ahead (buffer for changes)
- Schedule at PEAK times (platform-specific)
- Mix content types (Post → Reel → Story → Carousel)
- Never post same content on all platforms simultaneously (customize slightly)
- Always preview before scheduling

- Schedule more than 2 weeks ahead (trends change)
- Schedule during low-engagement times (wastes reach)
- Forget to add CTA to every post
- Schedule without caption review
- Over-schedule (max 1 feed post/day per platform)

SYS-05: COMMUNITY & ENGAGEMENT SYSTEM

Goal: Reply fast, build loyalty, never miss a comment.

5.1 THE ENGAGEMENT FRAMEWORK

The 3 Engagement Rules:

RULE 1: REPLY WITHIN 1 HOUR OF POSTING

Why: Algorithm rewards fast engagement. Comments in first hour boost reach 2–3x more than comments after 24 hours.

How: Set phone notification ON for your clients' accounts.

RULE 2: REPLY TO EVERY COMMENT (First 48 Hours)

Why: Shows community is active. Algorithm sees conversation = more reach.

How: Batch check 3x/day (morning, lunch, evening).

RULE 3: ENGAGE WITH OTHERS (15 min/day)

Why: Builds network. Other accounts notice → follow back → referrals.

How: Comment meaningfully on 10 posts in your niche daily.

5.2 ENGAGEMENT INBOX (Unified View)

Use: Calm template. Escalate to client IMMEDIATELY.

SYS-06: PAID ADS MANAGEMENT SYSTEM

Goal: Run campaigns that make money. Track everything. Report ROI.

6.1 CAMPAIGN SETUP FLOW

CLIENT WANTS ADS

[6.1-A] Business Goal → Campaign Objective

"Want more sales?" → Conversions / Sales

"Want more leads?" → Lead Generation

"Want more followers?" → Reach / Awareness

[6.1-B] Audience Setup

- Demographics (age, location, gender)
- Interests (what they like)
- Lookalikes (from existing customers — BEST)
- Retargeting (website visitors, engagers)

[6.1-C] Ad Creative Production

- 3 image/video variations (A/B test)
- 2 headline variations
- 1 primary text variation

[6.1-D] Campaign Launch

- Budget: Start LOW (₹200–500/day)
- Bidding: Automatic (let platform optimize)
- Placements: Automatic (all placements)

[6.1-E] Monitoring & Optimization

- Check daily: Cost, CTR, CPC, ROAS
- Week 1: DO NOT CHANGE anything (let algorithm learn)
- Week 2+: Scale winning ads, kill losers

[6.1-F] Monthly Report (see SYS-08)

6.2 ADS TRACKING DASHBOARD

Tool:  Zoho Analytics / Google Looker Studio (free) / Microsoft Power BI

What to track DAILY (5 minutes):

AD PERFORMANCE DASHBOARD:

METRIC	TARGET	STATUS
--------	--------	--------

Daily Spend	₹[budget]	₹____
-------------	-----------	-------

Impressions	[X]	____
-------------	-----	------

Clicks	[X]	____
--------	-----	------

CTR (Click Rate)	> 1.5%	____%
------------------	--------	-------

CPC (Cost/Click)	< ₹[X]	₹____
------------------	--------	-------

Leads / Sales	[X]	____
---------------	-----	------

Cost Per Lead/Sale	< ₹[X]	₹____
--------------------	--------	-------

ROAS	> 3x	____x
------	------	-------

TOP AD (highest CTR): [Ad name] — ____% CTR

WORST AD (lowest): [Ad name] — kill it? Y/N

6.3 THE AD OPTIMIZATION RULES

WEEK 1 (Days 1–7): LEARN PHASE

✓ DO: Watch metrics. Take notes. DO NOTHING else.

✗ DON'T: Change anything. Algorithm needs data to learn.

Why: Meta/Google algorithms need 7 days + 50 conversions to optimize.

WEEK 2 (Days 8–14): FIRST OPTIMIZATION

✓ DO:

- If CTR < 0.8% → change creative (new image/video)
- If CPC > 2x average → narrow audience OR change creative
- If ROAS > 4x → INCREASE budget by 20%
- If zero conversions → check landing page, tracking pixel

✗ DON'T: Change audience AND creative at same time (can't tell what worked)

WEEK 3+ (Ongoing): SCALE & REFINE

✓ DO:

- Scale winning ads (increase budget 20% every 3 days max)
- Kill ads with CTR < 0.5% after 3 days
- Test 1 new creative per week
- Add negative keywords (exclude irrelevant audiences)
- Create retargeting campaigns (website visitors)

✗ DON'T:

- Scale too fast (budget × 2 overnight = algorithm resets)
- Ignore frequency (if > 3, audience is burned out → new creative)

6.4 AD CREATIVE PRODUCTION CHECKLIST

FOR EACH AD CAMPAIGN, CREATE:

3 IMAGE/VIDEO VARIATIONS:

- ☐ Version A: Product/service hero shot (direct)

For each lead: Look at their profile, last 5 posts

Note: What's wrong? What could be better?

This is YOUR personalization hook

STEP 3: WRITE & SEND (30–45 mins)

Use this framework (NOT copy-paste):

Line 1: Genuine compliment (specific to THEM)
